GUANGZHOU TAISHENG SANITARY WARE TECHNOLOGY CO.,LTD

WE PROFESSIONALLY MAKE  
**SPA COVERS**

# COMPANY PROFILE

Guangzhou Taisheng Sanitary Ware Technology Co., Ltd, established in 2003 and located in Guangzhou City, is the most professional manufacturer of spa covers and spa accessories in China. With rich experience providing customer with multiple OEM solutions to meet their foremost requirements, and with the continuous developed & improved determination and actions, we have won ourselves with more opportunity to work with world-top companies, and honorably, we enjoy a high reputation in European and North American markets. Our signature products are Walk-on Cover, extra Thermal Cover, Winter Rolling Cover, H-shape Swimspace Cover, Hydraulic Lifters, Synthetic Swimspace Stair, and injection-molding Plastic Step.

Covering an area of 25,000 square meters, our factory is equipped with the most advanced equipment to guarantee the high standard quality product and efficient production. There are 8 CAD automatic cutting machines, 6 automatic 3D dimension foam-cut machine, 4 heat-sealed machine and 60 imported sewing machines to support our strong covers' supply. We have 3 automatic Aluminum Laser cutting machine and numbers of metal bending machine to support the lifters' supply. And there are 2 automatic plastic process equipment to support our continuous plastic step supply. Our talented craftsmen and state-of-the-art production equipment are combined to provide the best product precision that our customers have come to expect. We truly believe that our reliable product quality and responsible service is the foundation of our company.

## OEM & ODM

*Regarding to product quality guarantee, we have adopted a strict quality control system in every area of manufacturing, before packaging and before delivery. As well, we have set up a inspection system to our supply chain of raw materials to ensure that the qualified rate of finished products is above 99.8%. Being aware that the market is changing and needs FRESH things, we also have built up a professional R&D team, which can help us move forward with more market-required OEM items and to strengthen our cooperation with customer partners.*

## ROLLING COVERS

OEM | Support heavier load | ASTM-Approved

Oxford Cloth Surface

Commercial Foam Inside

PVC Cloth Underside

## SPA ROLLING COVER FEATURE

This is an interesting cover, it can be rolled, easily and conveniently. Since its launched, we got pretty good feedback and its purchasing need is growing up rapidly.

### Less Water Absorbing

100% Waterproof Oxford cloth and PVC cloth prevent water from absorbing into the cover.

### Tackle All Climate Condition

Environmental-friendly Material used inside, make it fit all kind of Climate, no matter hot summer or cold winter.

### Less Space & Effort Needed

When it gets rolled, it keeps a slim size, easy to store and to be carried.

Also, it doesn't need a lifter

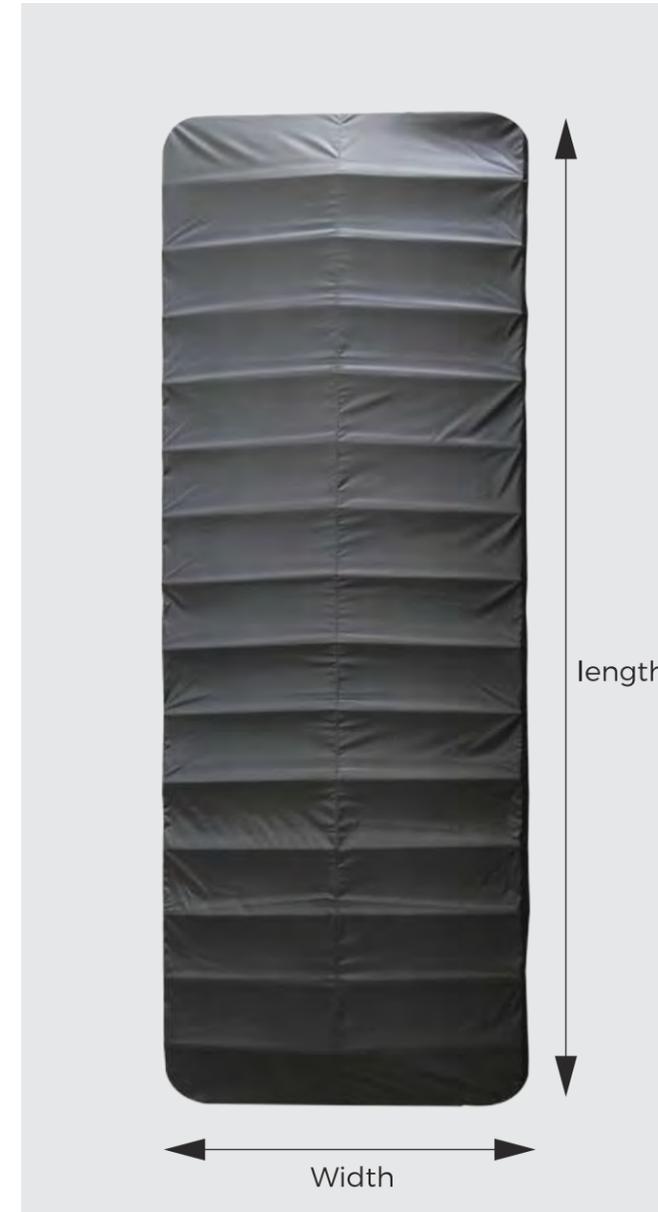

### Strong Durability

Fiber sticks as supporting structure to enable repeating rolled open&closed.

## 2nd Generation

### ROLLING COVERS (SMART)

- Improved stronger structure
- Better loading capacity
- Nicer in outlook
- Slimmer in rolled size & Lighter in weight

Straps With Buckles

100% Waterproof Material

Top Grade Anti-tear Cloth
